

IDEATION PHASE

DOCTORS SALARY PREDICTION

Date	5/11/23
Team id	592330
Project name	Doctors annual salary prediction
Max marks	4

- **How a doctor's salary prediction model can help:**

A doctor's salary prediction model can help doctors to understand their salary expectations by providing them with a personalized estimate of their salary based on their experience, specialty, and location.

A doctor's salary prediction model can also help doctors to budget effectively for the future by providing them with a clear understanding of their income and expenses.

Finally, a doctor's salary prediction model can help doctors to feel valued and compensated fairly for their work by providing them with the information they need to negotiate a salary that is commensurate with their experience and skills.

By understanding the needs, pain points, hopes, and dreams of doctors, we can create a doctor's salary prediction model that is truly helpful and supportive.
